

“A lung cancer diagnosis is life-changing and all I wanted was to talk with someone who understood my fears and hopes for the future. As a phone buddy, I can give what I needed to receive.”

- Phone Buddy Volunteer

Diagnosed with lung cancer?

You are not alone.
Talk to someone who
has been there.

GO2 FOUNDATION
FOR LUNG CANCER
Empower Everyone. Ignore No One.

Our Phone Buddy Program matches those diagnosed with lung cancer with volunteers (Phone Buddies) who have gone through similar situations for support.

SUPPORT & UNDERSTANDING

A Phone Buddy can help by listening and sharing their experiences. Phone Buddies know what it is like to worry about scans, have difficult conversations, and find a new normal after a cancer diagnosis. Because of this experience, they want to be there for you.

To be matched:

- Call
