A Caregiver's Evolution: From Shock to Engaged Advocate

“When my wife Debra was diagnosed with lung cancer in 2018, we were in shock. She had been having issues with her hip, which, after several weeks of physical therapy, didn't resolve. An MRI revealed a spot in her hip and after hip surgery, we were told it was lung cancer. It absolutely blew our minds that something that had manifested in her hip was stage 4 lung cancer.” -Kent Smith, lung cancer caregiver, advocate and GO2 Foundation Phone Buddy
