About That Other “C” Word (COVID-19)

While we entered the year 2020 celebrating the largest one-year drop in cancer mortality, it wasn't long before a new “C” entered the national conscience: COVID-19. For the lung cancer community in particular, COVID-19 presents a unique threat.

A Silver Lining: 2020 Treatment Advances

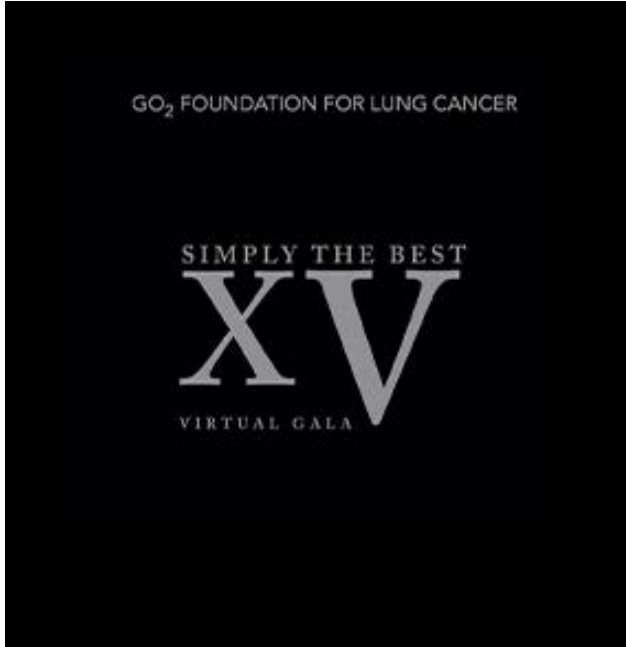

In a year full of challenges for everyone, there was a silver lining for lung cancer patients in the form of the abundance of new approvals by the Food and Drug Administration (FDA).

Lung Cancer and Precision Medicine – Past, Present and the Future of Health Care

Hippocrates made a keen observation more than 2,400 years ago, “It is more important to know what kind of patient has the disease than what kind of disease the patient has.” This statement could not ring truer than as it does now.
