Thank you for being a thoughtful and important supporter to GO2 Foundation for Lung Cancer. We want to share some important news with you.

Blackbaud, one of the largest providers of financial and fundraising technology to nonprofits and a long-time service provider to GO2 Foundation, informed us on Thursday, July 16, 2020 that they experienced an information security breach on May 20, 2020. As part of the breach, a file containing your personal information was accessed. **Blackbaud has informed us that no credit card information, no bank account information, and no Social Security numbers were stolen.**

Blackbaud has exercised several appropriate measures to protect your data, and we have no reason to believe that any data was or will be made available publicly. As a precautionary measure, Blackbaud has hired outside experts, including law enforcement, to monitor the web and they have found no evidence that any information was released.

Keeping your donor data secure is a top priority to our organization, and we will notify you promptly if the continued investigation uncovers new information. As we mentioned, financial information is encrypted in the system and was not accessed by the criminals.

We apologize for any inconvenience this has caused. We deeply value your partnership with GO2 Foundation and the support you bring to the lung cancer community. If you have any questions, please feel free to set up a call with our donor relations team at donate@go2foundation.org. Additional information is also available at blackbaud.com/securityincident.

Sincerely,

A handwritten signature in black ink, appearing to read "Laurie Fenton Ambrose".

Laurie Fenton Ambrose
President, CEO and Co-Founder, GO2 Foundation for Lung Cancer
