## For Everyone Impacted by Lung Cancer

We put people living with, and at risk for, lung cancer at the center of everything we do. From finding care to staying informed and building your resources, we are your community. As your friends, your guides, your advocates, and your support system, GO2 is your go-to.

# Diagnosed with Lung Cancer?

**You are not alone. Talk to  
someone who has been there.**

## Phone Buddy Program

PATIENT SUPPORT

## Support & Understanding

The Phone Buddy Program is for anyone who wants to hear how someone else coped with their lung cancer diagnosis.

Phone Buddies listen and share their experiences. They know what it is like to worry about scans, have difficult conversations, and find new normal after a cancer diagnosis. They are there for you.

**“A lung cancer diagnosis is life-changing, and all I wanted was to talk with someone who understood my fears and hopes for the future. As a Phone Buddy, I can give what I needed to receive.”**

**– Phone Buddy volunteer**

**G02's Phone Buddy Program is a peer-to-peer matching program that connects people with trained volunteers. Phone Buddies are people who have been diagnosed with lung cancer or who have cared for someone with lung cancer and want to support you by lending a listening ear.**
